Support & Services

- Nurture has strong hybrid delivery model for version upgrade projects.
- The team has strong technical and functional consultants including experienced project managers
- To ensure timely completion of projects, we've structured internal trainings to equip them on both Finacle 7.x and 10.x and use of technical tools
- We implemented Agile Development for faster delivery and higher quality
- We also deployed testing teams with rich functional knowledge who involved in Scenario testing and share timely functional inputs that helped in improving the overall quality of delivery and eliminate bugs

Innovations

- Agile Delivery Model
- Used Story Board Elabroation and in build Demo to client to eliminate understanding gaps and bug free delivery
- Controlled Internal process which would further help the efficiency and Quality
- Developed tool for Validation
